About Pond Venture Partners

Pond Venture Partners www.pondventures.com is Europe's largest early-stage technology venture capital fund, founded in 1997 and with more than \$200 million under management. Pond operates as a cohesive team based in London and Silicon Valley, with strong connections in Asia.

Pond works closely with its worldwide portfolio of companies to help build their technology innovations into successful global businesses – as well as providing introductions to new customers, management resources and quality co-investors. Pond's venture team includes acclaimed entrepreneurs, business leaders and technology visionaries, all with an international focus and a focus on partnering with their portfolio companies for success.

Pond is regulated by the FSA.
